REGULATIONS

REGULATION (EU) 2016/1624 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL**of 14 September 2016****on the European Border and Coast Guard and amending Regulation (EU) 2016/399 of the European Parliament and of the Council and repealing Regulation (EC) No 863/2007 of the European Parliament and of the Council, Council Regulation (EC) No 2007/2004 and Council Decision 2005/267/EC**

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Article 77(2)(b) and (d) and Article 79(2)(c) thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee ⁽¹⁾,

Acting in accordance with the ordinary legislative procedure ⁽²⁾,

Whereas:

- (1) At its meeting on 25 and 26 June 2015, the European Council called for wider efforts in resolving unprecedented migratory flows towards Union territory in a comprehensive manner, including by reinforcing border management to better manage growing mixed migratory flows. Furthermore, at their informal meeting on migration on 23 September 2015, the Heads of State or Government stressed the need to tackle the dramatic situation at the external borders and to strengthen the controls at those borders, in particular through additional resources for the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, the European Asylum Support Office (EASO), and Europol, with human resources and technical contributions from Member States.
- (2) The objective of Union policy in the field of external border management is to develop and implement European integrated border management at national and Union level, which is a necessary corollary to the free movement of persons within the Union and is a fundamental component of an area of freedom, security and justice. European integrated border management is central to improving migration management. The aim is to manage the crossing of the external borders efficiently and address migratory challenges and potential future threats at those borders, thereby contributing to addressing serious crime with a cross-border dimension and ensuring a high level of internal security within the Union. At the same time, it is necessary to act in full respect for fundamental rights and in a manner that safeguards the free movement of persons within the Union.

⁽¹⁾ OJ C 303, 19.8.2016, p. 109.

⁽²⁾ Position of the European Parliament of 6 July 2016 (not yet published in the Official Journal) and decision of the Council of 14 September 2016.

- (3) European integrated border management, based on the four-tier access control model, comprises measures in third countries, such as under the common visa policy, measures with neighbouring third countries, border control measures at the external borders, risk analysis and measures within the Schengen area and return.
- (4) When implementing European integrated border management, coherence with other policy objectives should be ensured, including the proper functioning of cross-border transport.
- (5) To ensure the effective implementation of European integrated border management, a European Border and Coast Guard should be established. It should be provided with the requisite financial and human resources and equipment. The European Border and Coast Guard should comprise the European Border and Coast Guard Agency ('the Agency') and national authorities which are responsible for border management, including coast guards to the extent that they carry out border control tasks. As such it will rely upon the common use of information, capabilities and systems at national level and the response of the Agency at Union level.
- (6) European integrated border management should be implemented as a shared responsibility of the Agency and the national authorities responsible for border management, including coast guards to the extent that they carry out maritime border surveillance operations and any other border control tasks. While Member States retain the primary responsibility for the management of their external borders in their interest and in the interest of all Member States, the Agency should support the application of Union measures relating to the management of the external borders by reinforcing, assessing and coordinating the actions of Member States which implement those measures.
- (7) European integrated border management does not alter the respective competences of the Commission and Member States in the customs area, in particular regarding controls, risk management and the exchange of information.
- (8) The development of policy and legislation on external border control and return, including the development of a European integrated border management strategy, remains a responsibility of the Union institutions. Close coordination between the Agency and those institutions should be guaranteed.
- (9) The European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, commonly referred to as Frontex, was established by Council Regulation (EC) No 2007/2004 ⁽¹⁾. Since taking up its responsibilities on 1 May 2005, it has been successful in assisting Member States with implementing the operational aspects of external border management through joint operations and rapid border interventions, risk analysis, information exchange, relations with third countries and the return of returnees.
- (10) It is necessary to monitor the crossing of the external borders efficiently, address migratory challenges and potential future threats at the external borders, ensure a high level of internal security within the Union, safeguard the functioning of the Schengen area and respect the overarching principle of solidarity. In light of this, it is necessary to reinforce the management of the external borders by building on the work of Frontex and further developing it into an agency with a shared responsibility for the management of the external borders.
- (11) The tasks of the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union should therefore be expanded. To reflect those changes, it should be renamed the European Border and Coast Guard Agency, which will continue to be commonly referred to as Frontex. It should remain the same legal person, with full continuity in all its activities and procedures. The key role of the Agency should be to establish a technical and operational strategy for implementation of integrated border management at Union level; to oversee the effective functioning of border control at the external borders; to provide increased technical and operational assistance to Member States through joint operations and rapid border interventions; to ensure the practical execution of measures in a situation requiring urgent action at the external borders; to provide technical and operational assistance in the support of search and rescue operations for persons in distress at sea; and to organise, coordinate and conduct return operations and return interventions.
- (12) The Agency should carry out its tasks without prejudice to the responsibilities of the Member States with regard to maintaining law and order and safeguarding internal security.

⁽¹⁾ Council Regulation (EC) No 2007/2004 of 26 October 2004 establishing a European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union (OJ L 349, 25.11.2004, p. 1).

- (13) The Agency should carry out its tasks without prejudice to the competence of the Member States with regard to defence.
- (14) The extended tasks and competence of the Agency should be balanced with strengthened fundamental rights safeguards and increased accountability.
- (15) Member States should be able to continue cooperation at an operational level with other Member States and/or third countries at the external borders, including military operations with a law enforcement purpose, to the extent that this cooperation is compatible with the actions of the Agency.
- (16) The Agency relies on the cooperation of Member States to be able to perform its tasks effectively. In this respect, it is important for the Agency and the Member States to act in good faith and to exchange accurate information in a timely manner. No Member State should be obliged to supply information the disclosure of which it considers contrary to the essential interests of its security.
- (17) Member States should also, in their own interests and in the interests of other Member States, enter data into the European databases. Equally, they should ensure that the data are accurate, up-to-date and obtained and entered lawfully.
- (18) The Agency should prepare general and tailored risk analyses based on a common integrated risk analysis model, to be applied by the Agency itself and by Member States. The Agency should, based also on information provided by Member States, provide adequate information covering all aspects relevant to European integrated border management, especially border control, return, irregular secondary movements of third-country nationals within the Union, prevention of cross-border crime including facilitation of unauthorised border crossings, trafficking in human beings, terrorism and threats of a hybrid nature, as well as the situation in neighbouring third countries, so as to allow for appropriate measures to be taken or to tackle identified threats and risks with a view to improving the integrated management of the external borders.
- (19) Given its activities at the external borders, the Agency should contribute to preventing and detecting serious crime with a cross-border dimension, such as migrant smuggling, trafficking in human beings and terrorism, where it is appropriate for it to act and where it has obtained relevant information through its activities. It should coordinate its activities with Europol as the agency responsible for supporting and strengthening Member States' actions and their cooperation in preventing and combating serious crime affecting two or more Member States. Cross-border crimes necessarily entail a cross-border dimension. Such a cross-border dimension is characterised by crimes directly linked to unauthorised crossings of the external borders, including trafficking in human beings or smuggling of migrants. That said, Article 1(2) of Council Directive 2002/90/EC ⁽¹⁾ allows Member States not to impose sanctions where the aim of the behaviour is to provide humanitarian assistance to migrants.
- (20) In a spirit of shared responsibility, the role of the Agency should be to monitor regularly the management of the external borders. The Agency should ensure proper and effective monitoring not only through risk analysis, information exchange and European Border Surveillance System (EUROSUR), but also through the presence of experts from its own staff in Member States. The Agency should therefore be able to deploy liaison officers to Member States for a period of time during which the liaison officer reports to the executive director. The report of the liaison officers should form part of the vulnerability assessment.
- (21) The Agency should carry out a vulnerability assessment based on objective criteria, to assess the capacity and readiness of the Member States to face challenges at their external borders. This should include an assessment of the equipment, infrastructure, staff, budget and financial resources of Member States as well as their contingency plans to address possible crises at the external borders. Member States should take measures to address any deficiencies identified in that assessment. The executive director should identify the measures to be taken and recommend them to the Member State concerned. The executive director should also set a time-limit within which those measures should be taken. Where the necessary measures are not taken within the set time-limit, the matter should be referred to the management board for a further decision.
- (22) If the Agency is not provided with accurate and speedy information necessary for carrying out a vulnerability assessment, it should be able to take that fact into account when performing the vulnerability assessment, unless duly justified reasons are provided for withholding the data.

⁽¹⁾ Council Directive 2002/90/EC of 28 November 2002 defining the facilitation of unauthorised entry, transit and residence (OJ L 328, 5.12.2002, p. 17).

- (23) The Agency should organise the appropriate technical and operational assistance to Member States so as to reinforce their capacity to implement their obligations with regard to the control of the external borders and to face challenges at the external borders resulting from illegal immigration or cross-border crime. Such assistance should be without prejudice to the relevant national authorities' competence to initiate criminal investigations. In this respect, the Agency should, at the request of a Member State or on its own initiative, organise and coordinate joint operations for one or more Member States and deploy European Border and Coast Guard teams as well as the necessary technical equipment. It may also deploy experts from among its own staff.
- (24) In cases where there is a specific and disproportionate challenge at the external borders, the Agency should, at the request of a Member State or on its own initiative, organise and coordinate rapid border interventions and deploy both European Border and Coast Guard teams from a rapid reaction pool and technical equipment. Rapid border interventions should provide reinforcement for a limited period of time in situations where an immediate response is required and where such an intervention would provide an effective response. To ensure the effective operation of such intervention, Member States should make border guards and other relevant staff available to the rapid reaction pool and provide the necessary technical equipment. The Agency and the Member State concerned should agree upon an operational plan.
- (25) Where a Member State faces specific and disproportionate migratory challenges at particular areas of its external borders characterised by large, inward, mixed migratory flows the Member States should be able to rely on technical and operational reinforcements. This should be provided in hotspot areas by migration management support teams. These teams should be composed of experts to be deployed from Member States by the Agency and by EASO and from the Agency, Europol or other relevant Union agencies. The Agency should assist the Commission in the coordination among the different agencies on the ground.
- (26) Member States should ensure that any authorities which are likely to receive applications for international protection such as the police, border guards, immigration authorities and personnel of detention facilities have the relevant information. They should also ensure that such authorities' personnel receive the necessary level of training which is appropriate to their tasks and responsibilities and instructions to inform applicants as to where and how applications for international protection may be lodged.
- (27) In hotspot areas the different agencies and Member States should operate within their respective mandates and powers. The Commission, in cooperation with the other relevant agencies, should ensure the compliance of activities in the hotspot areas with the relevant Union *acquis*, including the Common European Asylum System and fundamental rights.
- (28) Where control of the external border is rendered ineffective to such an extent that it risks jeopardising the functioning of the Schengen area, either because a Member State does not take the necessary measures in line with a vulnerability assessment or because a Member State facing specific and disproportionate challenges at the external borders has not requested sufficient support from the Agency or is not implementing such support, a unified, rapid and effective response should be delivered at Union level. For the purpose of mitigating these risks, and to ensure better coordination at Union level, the Commission should propose to the Council a decision identifying the measures to be implemented by the Agency and requiring the Member State concerned to cooperate with the Agency in the implementation of those measures. The implementing power to adopt such a decision should be conferred on the Council because of the potentially politically sensitive nature of the measures to be decided, which are likely to touch on national executive and enforcement powers. The Agency should determine the actions to be taken for the practical execution of the measures indicated in the Council decision. It should then draw up an operational plan with the Member State concerned. If a Member State does not comply within 30 days with that Council decision and does not cooperate with the Agency in the implementation of the measures contained in that decision, the Commission should be able to trigger the specific procedure provided for in Article 29 of Regulation (EU) 2016/399 of the European Parliament and of the Council ⁽¹⁾ to face exceptional circumstances putting the overall functioning of the area without internal border control at risk. Therefore, Regulation (EU) 2016/399 should be amended accordingly.
- (29) The Agency should have the necessary equipment and staff at its disposal to be deployed in joint operations or rapid border interventions. To this end, when launching rapid border interventions at the request of a Member State or in the context of a situation requiring urgent action, the Agency should be able to deploy, in the Member States, European Border and Coast Guard teams from a rapid reaction pool which should be a standing corps composed of border guards and other relevant staff. There should be a minimum of 1 500 border guards and

⁽¹⁾ Regulation (EU) 2016/399 of the European Parliament and of the Council of 9 March 2016 on a Union Code on the rules governing the movement of persons across borders (Schengen Borders Code) (OJ L 77, 23.3.2016, p. 1).

other relevant staff in the pool. The deployment of the European Border and Coast Guard teams from the rapid reaction pool should be immediately complemented by additional European Border and Coast Guard teams where necessary.

- (30) Annex I sets out the contributions of Member States to the rapid reaction pool on the basis of pledges in light of the circumstances pertaining at the time of the entry into force of this Regulation. If those circumstances change substantially and structurally, including when a decision on the lifting of controls on Member States' internal borders, pursuant to the provisions of the relevant Acts of Accession, has been taken, the Commission should propose the appropriate amendments to that Annex.
- (31) Having regard to the rapidity with which deployment of equipment and staff would need to take place in particular at areas of the external borders facing sudden large inward migratory flow, the Agency should also be able to deploy its own technical equipment which it should acquire itself or in co-ownership with a Member State. That technical equipment should be made available to the Agency upon its request by the Member States where the equipment is registered. The Agency should also manage a pool of technical equipment provided by Member States, based on the needs identified by the Agency and which should be completed by the means of transport and operating equipment purchased by Member States under the Specific Actions of the Internal Security Fund.
- (32) On 15 October 2015, the European Council called for an enlargement of Frontex's mandate on return, to include the right to organise joint return operations on its own initiative and an enhancement of its role regarding the acquisition of travel documents for returnees.
- (33) The Agency should step up its assistance to Member States for returning third-country nationals, subject to the Union return policy and in compliance with Directive 2008/115/EC of the European Parliament and of the Council⁽¹⁾. In particular, it should coordinate and organise return operations from one or more Member States and organise and conduct return interventions to reinforce the return systems of Member States requiring increased technical and operational assistance to comply with their obligation to return third-country nationals in accordance with that Directive.
- (34) The Agency should, in full respect for fundamental rights, provide the necessary assistance to Member States in organising return operations and return interventions of returnees. It should not enter into the merits of return decisions issued by Member States. In addition, the Agency should assist Member States in the acquisition of travel documents for return, in cooperation with the authorities of the relevant third countries.
- (35) The assistance to Member States in carrying out return procedures should include the provision of practical information on third countries of return relevant for the implementation of this Regulation, such as the provision of contact details or other logistical information necessary for the smooth conduct of return operations. For the purposes of taking return decisions, the Agency should not be involved in the provision of information to Member States on third countries of return.
- (36) The possible existence of an arrangement between a Member State and a third country does not absolve the Agency or the Member States from their obligations under Union or international law, in particular as regards compliance with the principle of *non-refoulement*.
- (37) The Agency should establish pools of forced-return monitors, forced-return escorts and return specialists made available by Member States, who should be deployed during return operations and who should form part of tailor-made European return intervention teams deployed in return interventions. The pools should include staff with specific expertise in child protection. The Agency should provide them with the necessary training.
- (38) In accordance with international law instruments such as the United Nations Convention on the Rights of the Child, any individual below the age of 18 is to be considered as a child under this Regulation. The child's best interests are to be a primary consideration in the activities of the Agency.

⁽¹⁾ Directive 2008/115/EC of the European Parliament and of the Council of 16 December 2008 on common standards and procedures in Member States for returning illegally staying third-country nationals (OJ L 348, 24.12.2008, p. 98).

- (39) Special provision should be made for staff involved in activities relating to return to specify their tasks, powers and responsibilities. Special instructions should also be issued concerning the power of the pilots in charge of aircraft and the extension of the criminal jurisdiction of the country of registration of the aircraft under international aviation law, in particular the Tokyo Convention on Offences and certain other acts committed on board aircraft.
- (40) The Agency should develop specific training tools, including specific training in the protection of children. It should provide training at Union level for national instructors of border guards. It should also offer additional training courses and seminars related to integrated border management tasks, including for officers of the competent national bodies. This should include training on relevant Union and international law and on fundamental rights. The Agency should be authorised to organise training activities in cooperation with Member States and third countries on their territory.
- (41) The Agency should monitor and contribute to the developments in research relevant for European integrated border management. It should disseminate information on such developments to the European Parliament, the Member States, and to the Commission.
- (42) Effective implementation of an integrated management of the external borders requires regular, swift and reliable exchange of information among the Member States. The Agency should develop and operate information systems facilitating such exchange in accordance with Union data protection legislation. It is important that Member States provide the Agency promptly with complete and accurate information that it needs to perform its tasks.
- (43) For the purpose of fulfilling its mission and to the extent required for the accomplishment of its tasks, the Agency may cooperate with Union institutions, bodies, offices and agencies as well as with international organisations in matters covered by this Regulation in the framework of working arrangements concluded in accordance with Union law and policy. Those working arrangements should receive the Commission's prior approval.
- (44) National authorities carrying out coast guard functions are responsible for a wide range of tasks, which may include maritime safety, security, search and rescue, border control, fisheries control, customs control, general law enforcement and environmental protection. The Agency, the European Fisheries Control Agency established by Council Regulation (EC) No 768/2005 ⁽¹⁾ and the European Maritime Safety Agency established by Regulation (EC) No 1406/2002 of the European Parliament and of the Council ⁽²⁾ should therefore strengthen their cooperation both with each other and with the national authorities carrying out coast guard functions to increase maritime situational awareness and to support coherent and cost-efficient action. Synergies between the various actors in the maritime environment should be in line with the European integrated border management and maritime security strategies.
- (45) The implementation of this Regulation does not affect the division of competence between the Union and the Member States under the Treaties, or the obligations of Member States under international conventions such as the United Nations Convention on the Law of the Sea, the International Convention for the Safety of Life at Sea, the International Convention on Maritime Search and Rescue, the International Convention for the Prevention of Pollution from Ships, the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers, and other relevant international maritime instruments.
- (46) The Agency should facilitate and encourage technical and operational cooperation between Member States and third countries in the framework of the external relations policy of the Union. In this context, it should coordinate operational cooperation between Member States and third countries in the field of management of the external borders, deploy liaison officers to third countries and cooperate with the authorities of third countries on return, including as regards the acquisition of travel documents. In their cooperation with third countries, the Agency and Member States should comply with Union law at all times, including fundamental rights and the principle of *non-refoulement*. They should likewise do so when the cooperation with third countries takes place on the territory of those countries. In order to increase transparency and accountability, the Agency should report on cooperation with third countries in its annual report.

⁽¹⁾ Council Regulation (EC) No 768/2005 of 26 April 2005 establishing a Community Fisheries Control Agency and amending Regulation (EEC) No 2847/93 establishing a control system applicable to the common fisheries policy (OJ L 128, 21.5.2005, p. 1).

⁽²⁾ Regulation (EC) No 1406/2002 of the European Parliament and of the Council of 27 June 2002 establishing a European Maritime Safety Agency (OJ L 208, 5.8.2002, p. 1).

- (47) The European Border and Coast Guard, which includes the Agency and the national authorities of Member States which are responsible for border management, including coast guards to the extent that they carry out border control tasks, should fulfil its tasks in full respect for fundamental rights, in particular the Charter of Fundamental Rights of the European Union ('the Charter'), the European Convention for the Protection of Human Rights and Fundamental Freedoms, relevant international law, including the United Nations Convention on the Rights of the Child, the Convention on the Elimination of All Forms of Discrimination Against Women, the Convention Relating to the Status of Refugees and obligations related to access to international protection, in particular the principle of *non-refoulement*, the United Nations Convention on the Law of the Sea, the International Convention for the Safety of Life at Sea, and the International Convention on Maritime Search and Rescue. In accordance with Union law and those instruments the Agency should assist Member States in conducting search and rescue operations in order to protect and save lives whenever and wherever so required.
- (48) Given the increased number of its tasks, the Agency should further develop and implement a strategy to monitor and ensure the protection of fundamental rights. To that end it should provide its fundamental rights officer with adequate resources and staff corresponding to its mandate and size. The fundamental rights officer should have access to all information necessary to fulfil her or his tasks. The Agency should use its role to actively promote the application of the Union *acquis* relating to the management of the external borders, including with regard to respect for fundamental rights and international protection.
- (49) This Regulation respects fundamental rights and observes the principles recognised by Articles 2 and 6 of the Treaty on European Union (TEU) and reflected in the Charter. In particular, this Regulation seeks to ensure full respect for human dignity, the right to life, the right to liberty and security, the right to the protection of personal data, the right to asylum, the right to effective remedy, the rights of the child, the prohibition of torture and of inhuman or degrading treatment or punishment and the prohibition of trafficking in human beings. It also seeks to promote the application of the principles of non-discrimination and *non-refoulement*.
- (50) This Regulation should establish a complaints mechanism for the Agency in cooperation with the fundamental rights officer, to safeguard the respect for fundamental rights in all the activities of the Agency. This should be an administrative mechanism whereby the fundamental rights officer should be responsible for handling complaints received by the Agency in accordance with the right to good administration. The fundamental rights officer should review the admissibility of a complaint, register admissible complaints, forward all registered complaints to the executive director, forward complaints concerning members of the teams to the home Member State, and register the follow-up by the Agency or that Member State. The mechanism should be effective, ensuring that complaints are properly followed up. The complaints mechanism should be without prejudice to access to administrative and judicial remedies and not constitute a requirement for seeking such remedies. Criminal investigations should be conducted by the Member States. In order to increase transparency and accountability, the Agency should report on the complaints mechanism in its annual report. It should cover in particular the number of complaints it has received, the types of fundamental rights violations involved, the operations concerned and, where possible, the follow-up measures taken by the Agency and Member States.
- (51) The Agency should be independent as regards technical and operational matters and have legal, administrative and financial autonomy. To that end, it is necessary and appropriate that it should be a Union body having legal personality and exercising the implementing powers that are conferred upon it by this Regulation.
- (52) The Commission and the Member States should be represented within a management board to exercise oversight over the Agency. The management board should, where possible, consist of the operational heads of the national services responsible for border guard management or their representatives. The parties represented in the management board should make efforts to limit turnover of their representatives so as to ensure continuity of the management board's work. The management board should be entrusted with the necessary powers to establish the Agency's budget, verify its execution, adopt appropriate financial rules, establish transparent working procedures for decision-making by the Agency and appoint the executive director and the deputy executive director. The Agency should be governed and operated taking into account the principles of the common approach on Union decentralised agencies adopted on 19 July 2012 by the European Parliament, the Council and the Commission.

- (53) In order to guarantee the autonomy of the Agency, it should be granted a stand-alone budget whose revenue comes mostly from a contribution from the Union. The Union budgetary procedure should be applicable as far as the Union contribution and any other subsidies chargeable to the general budget of the Union are concerned. The auditing of accounts should be undertaken by the Court of Auditors.
- (54) Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council ⁽¹⁾ should apply without restriction to the Agency, which should accede to the Interinstitutional Agreement of 25 May 1999 between the European Parliament, the Council of the European Union and the Commission of the European Communities concerning internal investigations by the European Anti-Fraud Office (OLAF) ⁽²⁾.
- (55) Regulation (EC) No 1049/2001 of the European Parliament and of the Council ⁽³⁾ should apply to the Agency. The Agency should be as transparent as possible about its activities, without jeopardising the attainment of the objective of its operations. It should make public information on all of its activities. It should likewise ensure that the public and any interested party are rapidly given information with regard to its work.
- (56) The Agency should also report on its activities to the European Parliament and to the Council to the fullest extent.
- (57) Any processing of personal data by the Agency within the framework of this Regulation should be conducted in accordance with Regulation (EC) No 45/2001 of the European Parliament and of the Council ⁽⁴⁾.
- (58) Any processing of personal data by Member States within the framework of this Regulation should be conducted in accordance with Directive 95/46/EC of the European Parliament and of the Council ⁽⁵⁾. In cases where the processing of data is necessary primarily for the purpose of ensuring a high level of internal security within the Union, especially in the context of actions relating to the monitoring of migratory flows and risk analysis, the processing of personal data collected during joint operations, pilot projects and rapid border interventions and by migration management support teams, or the cooperation with Union institutions, bodies, offices, agencies, and international organisations, Council Framework Decision 2008/977/JHA ⁽⁶⁾ applies. Any processing of personal data should respect the principles of necessity and proportionality.
- (59) Since the objectives of this Regulation, namely the development and implementation of a system of integrated management of the external borders to ensure the proper functioning of the Schengen area, cannot be sufficiently achieved by the Member States acting in an uncoordinated manner but can rather, by reason of the absence of controls at internal borders, the significant migratory challenges at the external borders, the need to monitor efficiently the crossing of those borders, and to contribute to a high level of internal security within the Union, be better achieved at Union level, the Union may adopt measures, in accordance with the principle of subsidiarity as set out in Article 5 of the TEU. In accordance with the principle of proportionality, as set out in that Article, this Regulation does not go beyond what is necessary in order to achieve those objectives.
- (60) The external borders referred to in this Regulation are those to which the provisions of Title II of Regulation (EU) 2016/399 apply, which includes the external borders of Schengen Member States in accordance with Protocol 19 on the Schengen *acquis* integrated into the framework of the European Union, annexed to the TEU and to the Treaty on the Functioning of the European Union (TFEU).

- (61) As regards Iceland and Norway, this Regulation constitutes a development of the provisions of the Schengen *acquis* within the meaning of the Agreement concluded by the Council of the European Union and the Republic of Iceland and the Kingdom of Norway concerning the latter's association with the implementation, application and development of the Schengen *acquis* ⁽¹⁾, which fall within the area referred to in point A of Article 1 of Council Decision 1999/437/EC ⁽²⁾. Initiating joint operations and rapid border interventions at the external borders

1. A Member State may request that the Agency launch joint operations to face upcoming challenges, including illegal immigration, present or future threats at its external borders or cross-border crime, or to provide increased technical and operational assistance when implementing its obligations with regard to the control of the external borders.
2. At the request of a Member State faced with a situation of specific and disproportionate challenges, especially the arrival at points of the external borders of large numbers of third-country nationals trying to enter the territory of that Member State without authorisation, the Agency may deploy a rapid border intervention for a limited period of time on the territory of that host Member State.

3. The executive director shall evaluate, approve and coordinate proposals for joint operations made by Member States. Joint operations and rapid border interventions shall be preceded by a thorough, reliable and up-to-date risk analysis, thereby enabling the Agency to set an order of priority for the proposed joint operations and rapid border interventions, taking into account the impact on external border sections in accordance with Regulation (EU) No 1052/2013 and the availability of resources.

4. The executive director shall, based on the results of the vulnerability assessment, and taking into account the Agency's risk analysis and the analysis layer of the European situational picture established in accordance with Regulation (EU) No 1052/2013, recommend to the Member State concerned to initiate and carry out joint operations or rapid border interventions. The Agency shall put its technical equipment at the disposal of the host or participating Member States.

5. The objectives of a joint operation or rapid border intervention may be achieved as part of a multipurpose operation. Such operations may involve coast guard functions and the prevention of cross-border crime, including the fight against migrant smuggling or trafficking in human beings, and migration management, including identification, registration, debriefing and return.

If required, the executive director may immediately send experts from the Agency to assess the situation at the external borders of the Member State concerned.
2. The executive director shall immediately inform the management board of a Member State's request to launch a rapid border intervention.
3. When deciding on the request of a Member State, the executive director shall take into account the findings of the Agency's risk analyses and the analysis layer of the European situational picture established in accordance with Regulation (EU) No 1052/2013 as well as the outcome of the vulnerability assessment referred to in Article 13 and any other relevant information provided by the Member State concerned or another Member State.
4. The executive director shall take a decision on the request to launch a rapid border intervention within two working days from the date of receipt of the request. The executive director shall simultaneously notify the Member State concerned and the management board in writing of the decision. The decision shall state the main reasons on which it is based.
5. If the executive director decides to launch a rapid border intervention, he or she shall deploy European Border and Coast Guard teams from the rapid reaction pool in accordance with Article 20(5) and the rapid reaction equipment pool in accordance with Article 39(7), and where necessary, he or she shall decide on the immediate reinforcement by one or more European Border and Coast Guard teams, in accordance with Article 20(8).
6. The executive director together with the host Member State shall draw up an operational plan as referred to in Article 16(3) immediately and, in any event, no later than three working days from the date of the decision.
7. As soon as the operational plan has been agreed upon and provided to the Member States, the executive director shall request in writing the Member States to immediately deploy the border guards or other relevant staff that form part of the rapid reaction pool. The executive director shall indicate the profiles and numbers of border guards or other relevant staff, required from each Member State from among those identified in the rapid reaction pool.

Deployment of the rapid reaction pool shall take place no later than five working days after the date on which the operational plan is agreed between the executive director and the host Member State. Additional deployment of European Border and Coast Guard teams, shall take place where necessary, within seven working days of the deployment of the rapid reaction pool.

11. If the rapid reaction pool is deployed, the executive director shall, in consultation with the management board, immediately consider the priorities with regard to the Agency's ongoing and foreseen joint operations at other external borders in order to provide for possible reallocation of resources to the areas of the external borders where a strengthened deployment is most needed.

Article 18

Migration management support teams

1. Where a Member State faces disproportionate migratory challenges at particular hotspot areas of its external borders characterised by large inward mixed migratory flows, that Member State may request technical and operational reinforcement by migration management support teams. That Member State shall submit a request for reinforcement and an assessment of its needs to the Agency and other relevant Union agencies, in particular EASO and Europol.

2. The executive director, in coordination with other relevant Union agencies, shall assess a Member State's request for reinforcement and the assessment of its needs for the purpose of defining a comprehensive reinforcement package consisting of various activities coordinated by the relevant Union agencies to be agreed upon by the Member State concerned.

3. The Commission shall, in cooperation with the host Member State and the relevant agencies, establish the terms of cooperation at the hotspot area and be responsible for the coordination of the activities of the migration management support teams.

Article 19

Situation at the external borders requiring urgent action

1. Where control of the external borders is rendered ineffective to such an extent that it risks jeopardising the functioning of the Schengen area because:

- (a) a Member State does not take the necessary measures in accordance with a decision of the management board referred to in Article 13(8); or
- (b) a Member State facing specific and disproportionate challenges at the external borders has either not requested sufficient support from the Agency under Article 15, 17 or 18, or is not taking the necessary steps to implement actions under those Articles,

the Council, on the basis of a proposal from the Commission, may adopt without delay a decision by means of an implementing act, identifying measures to mitigate those risks to be implemented by the Agency and requiring the Member State concerned to cooperate with the Agency in the implementation of those measures. The Commission shall consult the Agency before making its proposal.

2. If a situation requiring urgent action arises, the European Parliament shall be informed of that situation without delay and shall be informed of all subsequent measures and decisions taken in response.

3. To mitigate the risk of putting in jeopardy the Schengen area, the Council decision referred to in paragraph 1 shall provide for one or more of the following measures to be taken by the Agency:

- (a) organise and coordinate rapid border interventions and deploy European Border and Coast Guard teams from the rapid reaction pool, and additional European Border and Coast Guards teams as appropriate;

5. The executive director and the Member State concerned shall agree on the operational plan within three working days from the date of its submission.

6. The Agency shall, without delay and in any case within five working days from establishment of the operational plan, deploy the necessary staff from the rapid reaction pool referred to in Article 20(5) for the practical execution of the measures identified in the Council decision referred to in paragraph 1 of this Article. Additional European Border and Coast Guard teams shall be deployed as necessary at a second stage and in any case within seven working days from the deployment of the rapid reaction pool.

7. The Agency shall, without delay and in any case within 10 working days from establishment of the operational plan, deploy the necessary technical equipment for practical execution of the measures identified in the Council decision referred to in paragraph 1.

Additional technical equipment shall be deployed as necessary at a second stage in accordance with Article 39.

8. The Member State concerned shall comply with the Council decision referred to in paragraph 1. For that purpose it shall immediately cooperate with the Agency and take the necessary action to facilitate the implementation of that decision and the practical execution of the measures set out in that decision and in the operational plan agreed upon with the executive director.

9. The Member States shall make available the border guards and other relevant staff or staff involved in return-related tasks, determined by the executive director in accordance with paragraph 4 of this Article. The Member States may not invoke the situation referred to in Article 20(3) and (8).

Article 20

Composition and deployment of European Border and Coast Guard teams

1. The Agency shall deploy border guards and other relevant staff as members of the European Border and Coast Guard teams to joint operations, rapid border interventions and in the framework of the migration management support teams. The Agency may also deploy experts from its own staff.

2. On a proposal by the executive director, the management board shall decide by an absolute majority of its members with a right to vote on the profiles and the overall number of border guards and other relevant staff to be made available for the European Border and Coast Guard teams. The same procedure shall apply with regard to any subsequent changes in the profiles and the overall numbers. Member States shall contribute to the European Border and Coast Guard teams through a national pool on the basis of the various defined profiles by nominating border guards and other relevant staff corresponding to the required profiles.

3. The contribution by Member States as regards their border guards to specific joint operations for the following year shall be planned on the basis of annual bilateral negotiations and agreements between the Agency and Member States. In accordance with those agreements, Member States shall make the border guards available for deployment at the request of the Agency, unless they are faced with an exceptional situation substantially affecting the discharge of national tasks. Such a request shall be made at least 21 working days before the intended deployment. If a Member State invokes such an exceptional situation, it shall provide comprehensive reasons and information on the situation to the Agency in writing, the content of which shall be included in the report referred to in paragraph 12.

4. As regards rapid border interventions, on a proposal by the executive director, the management board shall decide by a three-quarters majority on the profiles and the minimum number of border guards or other relevant staff that correspond to those profiles to be made available for a rapid reaction pool of European Border and Coast Guard teams. The same procedure shall apply with regard to any subsequent changes in the profiles and the overall number of border guards or other relevant staff of the rapid reaction pool. Member States shall contribute to the rapid reaction pool via a national expert pool on the basis of the various defined profiles by nominating border guards or other relevant staff corresponding to the required profiles.

5. The rapid reaction pool shall be a standing corps placed at the immediate disposal of the Agency and which can be deployed from each Member State within five working days from when the operational plan is agreed upon by the executive director and the host Member State. For that purpose, each Member State shall, on a yearly basis, make available to the Agency a number of border guards or other relevant staff. Their profiles shall be as defined in the decision of the management board. The total number of staff made available by the Member States shall amount to a minimum of 1 500 border guards or other relevant staff. The Agency may verify whether the border guards proposed by Member States correspond to the defined profiles. The Agency may request that a Member State remove a border guard from the pool in the case of misconduct or infringement of the applicable rules.

6. Each Member State shall be responsible for its contribution to the number of border guards or other relevant staff, as referred to in paragraph 5, in accordance with Annex I.

7. Member States shall make the border guards and/or other relevant staff from the rapid reaction pool available for deployment at the request of the Agency. If a risk analysis and any available vulnerability assessment show that a Member State is faced with a situation that would substantially affect the discharge of national tasks, its contribution to the deployment of a rapid border intervention shall be half of its contribution fixed in Annex I. A host Member State where a rapid border intervention is taking place shall not deploy staff forming part of its fixed contribution to the rapid reaction pool. If there is a shortage of staff for deployment in the rapid border intervention, the management board shall decide how that shortage is to be filled based on a proposal of the executive director.

8. Where necessary, the deployment of European Border and Coast Guard teams from the rapid reaction pool shall be immediately supplemented by additional European Border and Coast Guard teams. For that purpose, Member States shall, at the request of the Agency, immediately communicate the number, names and profiles of border guards and other relevant staff from their national pool whom they are able to make available within seven working days from the start of the rapid border intervention. Member States shall make the border guards and other relevant staff available for deployment at the request of the Agency unless they are faced with an exceptional situation substantially affecting the discharge of national tasks. If a Member State invokes such an exceptional situation, it shall provide comprehensive reasons and information on the situation to the Agency in writing, the content of which shall be included in the report referred to in paragraph 12.

9. If a situation arises in which more border guards are required than provided for under paragraphs 5 and 8, the executive director shall immediately inform the European Parliament, the Council and the Commission. He or she shall also call upon the Council to seek commitments from Member States to meet the shortage.

10. Member States shall ensure that the border guards and other relevant staff which they contribute match the profiles and the numbers decided upon by the management board. The duration of the deployment shall be determined by the home Member State but in any event shall not be less than 30 days, except if the operation of which the deployment is a part has a shorter duration than 30 days.

11. The Agency shall contribute to the European Border and Coast Guard teams with competent border guards or other relevant staff seconded by the Member States as national experts to the Agency. The contribution by Member States as regards the secondment of their border guards or other relevant staff to the Agency for the following year shall be planned on the basis of annual bilateral negotiations and agreements between the Agency and Member States. In accordance with those agreements, Member States shall make the border guards or other relevant staff available for secondment, unless that would seriously affect the discharge of national tasks. In such situations Member States may recall their seconded border guards or other relevant staff.

Such secondments may be for 12 months or more but in any event shall not be for less than three months. The seconded border guards and other relevant staff shall be considered to be members of the teams and they shall have the tasks and powers of the members of their teams. The Member State that has seconded those border guards or other relevant staff shall be considered to be their home Member State.

Other staff employed by the Agency on a temporary basis who are not qualified to perform border control functions shall only be deployed during joint operations for coordination and other tasks which do not require full border-guard training. They shall not form part of the European Border and Coast Guard teams.

12. The Agency shall inform the European Parliament on an annual basis of the number of border guards that each Member State has committed and the number of border guards actually deployed to the European Border and Coast Guard teams in accordance with this Article. This report shall list the Member States that have invoked the exceptional situation referred to in paragraphs 3 and 8 in the previous year. It shall also include the reasons and information provided by the Member State concerned.

Article 21

Instructions to the European Border and Coast Guard teams

1. During deployment of European Border and Coast Guard teams, the host Member State shall issue instructions to the teams in accordance with the operational plan.
2. The Agency, through its coordinating officer, may communicate its views to the host Member State on the instructions given to European Border and Coast Guard teams. In that case, the host Member State shall take those views into consideration and follow them to the extent possible.
3. In cases where the instructions issued to the European Border and Coast Guard teams are not in compliance with the operational plan, the coordinating officer shall immediately report to the executive director, who may, if appropriate, take action in accordance with Article 25(3).
4. Members of the teams shall, in the performance of their tasks and in the exercise of their powers, fully respect fundamental rights, including access to asylum procedures, and human dignity. Any measures taken in the performance of their tasks and in the exercise of their powers shall be proportionate to the objectives pursued by such measures. While performing their tasks and exercising their powers, they shall not discriminate against persons on grounds of sex, racial or ethnic origin, religion or belief, disability, age or sexual orientation.
5. Members of the teams shall remain subject to the disciplinary measures of their home Member State. The home Member State shall provide for appropriate disciplinary or other measures in accordance with its national law regarding violations of fundamental rights or international protection obligations in the course of a joint operation or rapid border intervention.

Article 22

Coordinating officer

1. The Agency shall ensure the operational implementation of all the organisational aspects of joint operations, pilot projects or rapid border interventions, including the presence of staff members of the Agency.

3. The coordinating officer shall act on behalf of the Agency in all aspects of the deployment of the European Border and Coast Guard teams. The role of the coordinating officer shall be to foster cooperation and coordination among host and participating Member States. In particular, the coordinating officer shall:
 - (a) act as an interface between the Agency, the host Member State and the members of the European Border and Coast Guard teams, providing assistance, on behalf of the Agency, on all issues relating to the conditions of their deployment to the teams;

- (b) monitor the correct implementation of the operational plan, including as regards the protection of fundamental rights and report to the Agency on this;
 - (c) act on behalf of the Agency in all aspects of the deployment of the European Border and Coast Guard teams and report to the Agency on all those aspects;
 - (d) report to the executive director where the instructions issued to the European Border and Coast Guard teams by the host Member States are not in compliance with the operational plan.
4. In the context of joint operations or rapid border interventions, the executive director may authorise the coordinating officer to assist in resolving any disagreement on the execution of the operational plan and deployment of the teams.

Article 23

National contact point

Member States shall appoint a national contact point for communication with the Agency on all matters pertaining to the activities of the Agency. The national contact point shall be reachable at all times.

2. Detailed rules concerning the payment of the daily subsistence allowance of members of the European Border and Coast Guard teams shall be established and updated as necessary by the management board.

Article 25

Suspension or termination of activities

1. The executive director shall terminate activities of the Agency if the conditions to conduct those activities are no longer fulfilled. The executive director shall inform the Member State concerned prior to such termination.

2. The Member States participating in a joint operation, rapid border intervention or migration management support team deployment may request that the executive director terminate that joint operation, or rapid border intervention or migration management support team deployment.
3. The executive director may, after informing the Member State concerned, withdraw the financing of an activity or suspend or terminate it if the operational plan is not respected by the host Member State.
4. The executive director shall, after consulting the fundamental rights officer and informing the Member State concerned, withdraw the financing of a joint operation, rapid border intervention, pilot project, migration management support team deployment, return operation, return intervention or working arrangement or suspend or terminate, in whole or in part such activities, if he or she considers that there are violations of fundamental rights or international protection obligations that are of a serious nature or are likely to persist. The executive director shall inform the management board of such a decision.
5. If the executive director decides to suspend or terminate deployment by the Agency of a migration management support team, he or she shall inform the other relevant agencies active in that hotspot area of that decision.

Article 26

Evaluation of activities

The executive director shall evaluate the results of the joint operations and rapid border interventions, pilot projects, migration management support team deployments and operational cooperation with third countries. He or she shall transmit detailed evaluation reports within 60 days following the end of those activities to the management board, together with the observations of the fundamental rights officer. The executive director shall make a comprehensive comparative analysis of those results with a view to enhancing the quality, coherence and effectiveness of future activities, and shall include that analysis in the Agency's annual activity report.

Section 4

Article 28

Return operations

1. Without entering into the merits of return decisions and in accordance with Directive 2008/115/EC, the Agency shall provide the necessary assistance and, at the request of one or several participating Member States, ensure the coordination or the organisation of return operations, including through the chartering of aircraft for the purpose of such operations. The Agency may, on its own initiative, propose to Member States that it coordinate or organise return operations.
2. Member States shall on a monthly basis inform the Agency of their indicative planning of the number of returnees and of the third countries of return, both with respect to relevant national return operations, and of their needs for assistance or coordination by the Agency. The Agency shall draw up a rolling operational plan to provide the requesting Member States with the necessary operational reinforcements, including through technical equipment. The Agency may, on its own initiative or at the request of a Member State, include in the rolling operational plan the dates and destinations of return operations it considers necessary, based on a needs assessment. The management board shall decide, on a proposal of the executive director, on the *modus operandi* of the rolling operational plan.
3. The Agency may provide the necessary assistance and, either at the request of the participating Member States or on the basis of its own proposal, ensure the coordination or the organisation of return operations for which the means of transport and forced-return escorts are provided by a third country of return ('collecting return operations'). The participating Member States and the Agency shall ensure that the respect for fundamental rights, the principle of *non-refoulement*, and the proportionate use of means of constraints are guaranteed during the entire return operation. At least one Member State representative, and one forced-return monitor from the pool established under Article 29 or from the national monitoring system of the participating Member State, shall be present throughout the entire return operation until arrival at the third country of return.
4. The executive director shall draw up a return plan without delay for collecting return operations. The executive director and any participating Member State shall agree on the plan detailing the organisational and procedural aspects of the collecting return operation, taking account of the fundamental rights implications and risks of such operations. 6. Every return operation shall be monitored in accordance with Article 8(6) of Directive 2008/115/EC. The monitoring of forced-return operations shall be carried out by the forced-return monitor on the basis of objective and transparent criteria and shall cover the whole return operation from the pre-departure phase until the hand-over of the returnees in the third country of return. The forced-return monitor shall submit a report on each forced-return operation to the executive director, the fundamental rights officer and to the competent national authorities of all the Member States involved in the given operation. If necessary, appropriate follow-up shall be ensured by the executive director and competent national authorities respectively.
7. If the Agency has concerns regarding the respect of fundamental rights in respect of return operation, it shall communicate them to the participating Member States and to the Commission.
8. The executive director shall evaluate the results of the return operations. Every six months, he or she shall transmit a detailed evaluation report covering all return operations conducted in the previous semester to the management board, together with the observations of the fundamental rights officer. The executive director shall include that analysis in the Agency's annual activity report.
9. The Agency shall finance or co-finance return operations from its budget, in accordance with the financial rules applicable to the Agency, giving priority to those conducted by more than one Member State, or from hotspot areas.

2. The management board shall, on a proposal of the executive director determine the profile and the number of forced-return monitors to be made available to that pool. The same procedure shall apply with regard to any subsequent changes in the profile and overall numbers. Member States shall be responsible for contributing to the pool by nominating forced-return monitors corresponding to the defined profile. Forced-return monitors with specific expertise in child protection shall be included in the pool.
3. Member States' contribution of forced-return monitors to return operations and interventions for the following year shall be planned on the basis of annual bilateral negotiations and agreements between the Agency and Member States. In accordance with those agreements, Member States shall make the forced-return monitors available for deployment at the request of the Agency, unless they are faced with an exceptional situation substantially affecting the discharge of national tasks. Such a request shall be made at least 21 working days before the intended deployment, or five working days in case of a rapid return intervention.
4. The Agency shall make the forced-return monitors available upon request to participating Member States to monitor, on their behalf, the correct implementation of the return operation and return interventions throughout their duration. It shall make available forced-return monitors with specific expertise in child protection for any return operation involving children.

3. In performing of its tasks the European Border and Coast Guard shall take into account the special needs of children, unaccompanied minors, persons with disabilities, victims of trafficking in human beings, persons in need of medical assistance, persons in need of international protection, persons in distress at sea and other persons in a particularly vulnerable situation.

5. The Agency shall establish and further develop common core curricula for the training of border guards and provide training at European level for instructors of the national border guards of Member States, including with regard to fundamental rights, access to international protection and relevant maritime law. The common core curricula shall aim to promote the highest standards and best practices in the implementation of Union border management legislation. The Agency shall draw up the common core curricula after consulting the consultative forum and the fundamental rights officer. Member States shall integrate the common core curricula into the training they provide to their national border guards and staff involved in return-related tasks.

Article 37

Research and innovation

1. The Agency shall proactively monitor and contribute to research and innovation activities relevant for European integrated border management including the use of advanced surveillance technology. The Agency shall disseminate the results of that research to the European Parliament, to the Member States and to the Commission in accordance with Article 50. Article 38

Acquisition or leasing of technical equipment

1. The Agency may acquire, either on its own or as co-owner with a Member State, or lease technical equipment to be deployed during joint operations, pilot projects, rapid border interventions, return operations, return interventions, migration management support team deployments or technical assistance projects in accordance with the financial rules applicable to the Agency.
2. The Agency may acquire technical equipment by decision of the executive director in consultation with the management board. Any acquisition or leasing of equipment entailing significant costs to the Agency shall be preceded by a thorough needs and cost/benefit analysis. Any such expenditure shall be provided for in the Agency's budget as adopted by the management board.
3. Where the Agency acquires or leases major technical equipment, the following conditions shall apply:
 - (a) in case of acquisition by the Agency or co-ownership, the Agency shall agree with one Member State that that Member State shall provide for the registration of the equipment in accordance with the applicable legislation of that Member State;
 - (b) in case of leasing, the equipment shall be registered in a Member State.
4. On the basis of a model agreement drawn up by the Agency and approved by the management board, the Member State of registration and the Agency shall agree on terms ensuring the interoperability of the equipment and governing the use of the equipment, including specific provisions on rapid deployment during rapid border interventions. In the case of co-owned assets, the terms shall also cover the periods of full availability of the assets for the Agency. Technical equipment owned solely by the Agency shall be made available to the Agency upon its request and the Member State of registration may not invoke the exceptional situation referred to in Article 39(8).
5. The Member State of registration or the supplier of technical equipment shall provide the necessary experts and technical crew to operate the technical equipment in a legally sound and safe manner.

Article 39

Technical equipment pool

1. The Agency shall set up and keep centralised records of equipment in a technical equipment pool composed of equipment owned either by the Member States or by the Agency and equipment co-owned by the Member States and by the Agency for its operational activities.
2. Equipment solely owned by the Agency shall be fully available for deployment at any time as referred to in Article 38(4).
3. Equipment co-owned by the Agency at a share of more than 50 % shall also be available for deployment in accordance with an agreement between a Member State and the Agency as referred to in 38(4).

4. The Agency shall ensure the compatibility and interoperability of the equipment listed in the technical equipment pool.

To that end, it shall define technical standards to be met by equipment for its deployment in the activities of the Agency, where necessary. Equipment to be acquired by the Agency, be it as sole or co-owner, and equipment owned by Member States which is listed in the technical equipment pool shall meet these standards.

5. The executive director shall identify the minimum number of items of technical equipment required to meet the needs of the Agency, in particular as regards carrying out joint operations, migration management support team deployments, rapid border interventions, return operations and return interventions, in accordance with its work programme for the year in question.

If the minimum number of items of technical equipment proves to be insufficient to carry out the operational plan agreed for such activities, the Agency shall revise it on the basis of justified needs and of an agreement with the Member States.

6. The technical equipment pool shall contain the minimum number of items of equipment identified as needed by the Agency per type of technical equipment. The equipment listed in the technical equipment pool shall be deployed during joint operations, migration management support team deployments, pilot projects, rapid border interventions, return operations or return interventions.

7. The technical equipment pool shall include a rapid reaction equipment pool containing a limited number of items of equipment needed for possible rapid border interventions. The contributions of Member States to the rapid reaction equipment pool shall be planned in accordance with the annual bilateral negotiations and agreements referred in paragraph 8. For the equipment on the list of the items in this pool, Member States may not invoke the exceptional situation referred to in paragraph 8.

The equipment on this list shall be sent to the destination for deployment as soon as possible, and, in any event, no later than 10 days after the date on which the operational plan is agreed.

The Agency shall contribute to this pool with equipment at the Agency's disposal as referred to in Article 38(1).

8. Member States shall contribute to the technical equipment pool. The contribution by Member States to the pool and deployment of the technical equipment for specific operations shall be planned on the basis of annual bilateral negotiations and agreements between the Agency and Member States. In accordance with those agreements and to the extent that it forms part of the minimum number of items of technical equipment for a given year, Member States shall make their technical equipment available for deployment at the request of the Agency, unless they are faced with an exceptional situation substantially affecting the discharge of national tasks. If a Member State invokes such an exceptional situation, it shall provide, in writing, comprehensive reasons and information on the situation to the Agency, the content of which shall be included in the report referred to in paragraph 13. The Agency's request shall be made at least 45 days before the intended deployment of major technical equipment and 30 days before the intended deployment of other equipment. The contributions to the technical equipment pool shall be reviewed annually.

9. On a proposal of the executive director, the management board shall decide, on a yearly basis, on the rules relating to technical equipment, including the required overall minimum numbers of items per type of technical equipment and the terms for the deployment and reimbursement of costs as well as on the limited number of items of technical equipment for a rapid reaction equipment pool. For budgetary purposes that decision should be taken by the management board by 30 June each year.

10. If a rapid border intervention takes place, Article 17(11) will apply accordingly.

11. If unexpected needs for technical equipment for a joint operation or a rapid border intervention arise after the minimum number of items of technical equipment has been set and those needs cannot be met from the technical equipment pool or the rapid reaction equipment pool, Member States shall, where possible, on an ad hoc basis, make the necessary technical equipment available for deployment to the Agency upon its request.

12. The executive director shall regularly report on the composition and the deployment of equipment which is part of the technical equipment pool to the management board. Where the minimum number of items of technical equipment required in the pool has not been met, the executive director shall inform the management board without delay. The management board shall take a decision on the prioritisation of the deployment of the technical equipment urgently and take the appropriate steps to remedy the shortfall. The management board shall inform the Commission of the shortfall and the steps it has taken. The Commission shall subsequently inform the European Parliament and the Council thereof and of its own assessment.

13. The Agency shall on an annual basis submit a report to the European Parliament on the number of items of technical equipment that each Member State has committed to the technical equipment pool in accordance with this Article. That report shall list the Member States that invoked the exceptional situation referred to in paragraph 8 in the previous year and include the reasons and information provided by the Member State concerned.

14. Member States shall register in the technical equipment pool all the means of transport and operating equipment purchased under the Specific Actions of the Internal Security Fund in accordance with Article 7(1) of Regulation (EU) No 515/2014 of the European Parliament and of the Council ⁽¹⁾ or, where relevant, any other dedicated Union funding made available to the Member States in view of increasing the operational capacity of the Agency. That technical equipment shall form part of the minimum number of items of technical equipment for a given year.

The Member States shall make that technical equipment available for deployment to the Agency upon its request. In case of an operation referred to in Article 17 or in Article 19 of this Regulation, they may not invoke the exceptional situation referred to in paragraph 8 of this Article.

15. The Agency shall manage the records of the technical equipment pool as follows:

- (a) classification by type of equipment and by type of operation;
- (b) classification by owner (Member State, agency, other);
- (c) overall numbers of items of equipment required;
- (d) crew requirements if applicable;
- (e) other information, such as registration details, transportation and maintenance requirements, national applicable export regimes, technical instructions, or other information relevant to appropriate use of the equipment.

16. The Agency shall finance at 100 % the deployment of technical equipment which forms part of the minimum number of items of technical equipment provided by a given Member State for a given year. The deployment of technical equipment which does not form part of the minimum number of items of technical equipment shall be co-financed by the Agency up to a maximum of 100 % of the eligible expenses, taking into account the particular circumstances of the Member States deploying such technical equipment.

Member States shall ensure that they provide such database access in an efficient and effective manner. The members of the teams shall consult only those data which are required for performing their tasks and exercising their powers. The host Member State shall, in advance of the deployment of the members of the teams, inform the Agency of the national and European databases which may be consulted. The Agency shall make this information available to all Member States participating in the deployment.

That consultation shall be carried out in accordance with Union data protection law and the national data protection law of the host Member State.

9. Decisions to refuse entry in accordance with Article 14 of Regulation (EU) 2016/399 shall be taken only by border guards of the host Member State or by the members of the teams if authorised by the host Member State to act on its behalf.

The management board shall appoint the executive director taking these views into account. The management board shall take its decision by a two-thirds majority of all members with a right to vote.

3. The consultative forum shall be consulted on the further development and implementation of the fundamental rights strategy, on the establishment of the complaints mechanism, on codes of conduct and on common core curricula.

4. The consultative forum shall prepare an annual report of its activities. That report shall be made publicly available.

3. Only substantiated complaints involving concrete fundamental rights violations shall be admissible.
4. The fundamental rights officer shall be responsible for handling complaints received by the Agency in accordance with the right to good administration. For this purpose, the fundamental rights officer shall review the admissibility of a complaint, register admissible complaints, forward all registered complaints to the executive director, forward complaints concerning members of the teams to the home Member State, inform the relevant authority or body competent for fundamental rights in a Member State, and register and ensure the follow-up by the Agency or that Member State.
5. In accordance with the right to good administration, if a complaint is admissible, complainants shall be informed that a complaint has been registered, that an assessment has been initiated and that a response may be expected as soon as it becomes available. If a complaint is forwarded to national authorities or bodies, the complainant shall be provided with their contact details. If a complaint is not admissible, complainants shall be informed of the reasons and, if possible, provided with further options for addressing their concerns.

Any decision shall be in written form and reasoned.

6. In the case of a registered complaint concerning a staff member of the Agency, the executive director shall ensure appropriate follow-up, in consultation with the fundamental rights officer, including disciplinary measures as necessary. The executive director shall report back within a determined timeframe to the fundamental rights officer as to the findings and follow-up made by the Agency in response to a complaint, including disciplinary measures as necessary.

If a complaint is related to data protection issues, the executive director shall involve the data protection officer of the Agency. The fundamental rights officer and the data protection officer shall establish, in writing, a memorandum of understanding specifying their division of tasks and cooperation as regards complaints received.

7. If a complaint is registered that concerns a border guard of a host Member State or a member of the teams, including a seconded member of the teams or seconded national expert, the home Member State shall ensure appropriate follow-up, including disciplinary measures as necessary or other measures in accordance with national law. The relevant Member State shall report back to the fundamental rights officer as to the findings and follow-up made in response to the complaint within a determined time period, and if necessary, at regular intervals thereafter. The Agency shall follow-up the matter if no report is received from the relevant Member State.

The fundamental rights officer shall also draw up any further detailed rules as necessary. The fundamental rights officer shall submit that form and such further detailed rules to the executive director and to the management board.

The Agency shall ensure that information about the possibility and procedure for making a complaint is readily available, including for vulnerable persons. The standardised complaint form shall be made available on the Agency's website and in hardcopy during all activities of the Agency, in languages that third-country nationals understand or are reasonably believed to understand. Complaints shall be considered by the fundamental rights officer even when they are not submitted in the standardised complaint form.

11. Any personal data contained in a complaint shall be handled and processed by the Agency including the fundamental rights officer in accordance with Regulation (EC) No 45/2001 and by Member States in accordance with Directive 95/46/EC and Framework Decision 2008/977/JHA.

When a complainant submits a complaint, that complainant shall be understood to consent to the processing of his or her personal data by the Agency and the fundamental rights officer within the meaning of point (d) of Article 5 of Regulation (EC) No 45/2001.

In order to safeguard the interests of the complainants, complaints shall be dealt with confidentially by the fundamental rights officer in accordance with national and Union law unless the complainant explicitly waives his or her right to confidentiality.
