1. INTRODUCTION

The European Border and Coast Guard Agency seeks to implement the obligations stipulated in article 55(3) and article 62(2 and 3) of the Regulation (EU) 2019/1896 of the European Parliament and of the Council of 13 November 2019 on the European Border and Coast Guard as regards the training of its statutory staff who are going to be deployed as members of the teams (European Border and Coast Guard Standing Corps Category 1).

As part of achieving this goal, a Basic Training Programme for the European Border and Coast Guard Standing Corps Category 1 (EBCG Standing Corps Category 1) was designed by the Agency in cooperation with Member States. The Programme is aligned with the Common Core Curriculum for Border and Coast Guard Basic Training in the EU (CCC Basic) and promotes the highest standards and best practices in border and coast guard activities, including return related ones and incorporates the long standing experience of the Member States in border management.

Due to restrictions resulting from the COVID-19 pandemic, the Basic Training Programme for the EBCG Standing Corps Category 1 had to be temporarily redesigned allowing for a three months online learning phase (OLP) followed by a three months contact learning phase (CLP).

At present, and as subject of this call for proposals, the Agency is looking for specialised institutions for training and education in Member States that can provide the logistical and administrative support for the practical implementation of the three months contact learning phase (CLP) of Basic Training Programme for the EBCG Standing Corps Category 1, starting in September 2020. Up to 265 learners will follow the contact learning phase of this edition of the Basic Training.

No grant may be awarded retrospectively for actions already completed or for actions carried out before the grant agreement was signed.

11.4 Balanced budget

The estimated budget for the action, including the sources of funding, must be attached to the application form. It must have revenue and expenditure in balance. The budget must be detailed and must clearly indicate the eligible costs of the action.

The budget must be drawn up in euros. Applicants who foresee that costs will not be incurred in euros are invited to use the exchange rate published on the Infor-euro website available at http://ec.europa.eu/budget/contracts_grants/info_contracts/inforeuro/inforeuro_en.cfm.

11.5 Subcontracting

As a rule, an action and in particular its core activities are to be implemented directly by the applicant and its staff.
Where the implementation of the action requires sub-contracting (e.g. the purchase of some services and/or goods, equipment, etc.), the following criteria must be satisfied:

- the grant beneficiary must award the contract to the bid offering best value for money or the lowest price (as appropriate) and which avoids conflicts of interests; the beneficiary must retain the documentation in case of an audit;
- sub-contracting may only cover the implementation of a limited part of the action;
- it must be justified with regard to the nature of the action and what is necessary for its implementation; and
- it must be clearly stated in the application.

11.6 Eligible costs

Eligible costs are costs actually incurred by the grant beneficiary which meet all the following criteria:

- they are incurred during the duration of the actions;
- the period of eligibility of costs will start as specified in the grant agreement. Under no circumstances can the eligibility period start before the grant agreement has been signed and has entered into force;
- they are indicated in the estimated budget for the actions;
- they are necessary for the implementation of the actions which is the subject of the grant;
- they are identifiable and verifiable, in particular they are recorded in the accounting records of the grant beneficiary and determined according to the applicable accounting standards of the Member State or the Schengen Associated Country where the grant beneficiary is established and according to the grant beneficiary’s usual cost accounting practices;
- they comply with the requirements of applicable tax and social legislation;
- they are reasonable, justified, and comply with the requirements of sound financial management, in particular regarding economy and efficiency.

The grant beneficiary’s internal accounting and auditing procedures must permit direct reconciliation of the costs and revenue declared in respect of the actions with the corresponding accounting statements and supporting documents.

11.7 Specific eligible costs related to the actions

Eligible direct costs for the actions are those costs which, with due regard for the conditions of eligibility set out above, are identifiable as specific costs directly linked to the performance of the actions and which can therefore be booked to it directly, such as:

- costs of the administrative and logistical staff;
- costs related to the training infrastructure needed for the implementation of the CLP of the Basic Training Programme for the EBCG Standing Corps Category 1;
- costs related to the specific training equipment needed for the implementation of the CLP of the Basic Training Programme for the EBCG Standing Corps Category 1;
- costs of consumables and supplies, provided that they are identifiable and assigned to the implementation of the CLP of the Basic Training Programme for the EBCG Standing Corps Category 1;
- costs arising directly from the provision of the full board accommodation and meals and logistical support (e.g.: accommodation costs, catering costs, medical support, cleaning and laundry costs-to the extent that they are relevant to the use of training equipment, organisational support, organization of field visits).
- costs arising directly from requirements linked to the implementation of the CLP of the Basic Training Programme for the EBCG Standing Corps Category 1 (e.g.: dissemination of information, translations, reproduction, publication, training materials).
- costs of travel (field visits, etc.) provided that these costs are in line with the grant beneficiary's usual practices on travel;
- costs related to the organisation of meetings (e.g. catering, equipment rental).

A flat-rate amount of 5% of the total eligible direct costs of the action is eligible under indirect costs, representing the grant beneficiary's general administrative costs which can be regarded as chargeable to the action. Indirect costs may not include costs entered under another budget heading.

Please note that in the case of organisations receiving an operating grant, indirect costs are not eligible and should not be indicated in the estimated budget of the action.

11.8 Ineligible costs

The following costs constitute ineligible costs and therefore cannot be included in the estimated budget of the action:
- contribution in kind;
- return on capital;
- debt and debt service charges;
- provisions for losses or debts;
- interest owed;
- exchange losses;
- costs of bank transfers;
- costs declared by a grant beneficiary and covered by another action receiving a European Union grant. In particular, indirect costs shall not be eligible under a grant for an action awarded to a beneficiary who already receives an operating grant financed from the Union budget during the period in question;
- depreciation costs;
- deductible VAT;
- excessive or reckless expenditure.
11.9 Calculation of the final grant amount

The grant shall take form of a reimbursement on the basis of the unit cost declared by the beneficiaries. The final amount of the grant is established after the action has been completed, upon approval of the request for payment containing the following documents:

- The final report providing a summary about the project implementation;
- The final financial statement of the number of learners actually trained.

Frontex reserves the right to verify the actual implementation of the activities and/or production of the deliverables planned in the application.

Requests for payment and the documents accompanying them are to be scanned and sent in pdf format (attached to an email) and addressed to invoices@frontex.europa.eu with CC to TRU.EBCGSC.grants@frontex.europa.eu

If an activity planned in the application attached to the funding agreement is not executed or clearly inadequately executed, the final grant will be reduced accordingly. In case of unforeseen circumstances, the financing might be reduced according to the length of the training provided.

11.10 Payment arrangements

A pre-financing payment corresponding to 80% of the grant amount will be transferred to the grant beneficiary within 30 days of the reception of a request for pre-financing addressed to invoices@frontex.europa.eu with CC to TRU.EBCGSC.grants@frontex.europa.eu.

Frontex will establish the amount of the final payment to be made to the grant beneficiary on the basis of the calculation of the final grant amount (see section 11.9 above). If the total of earlier payments is higher than the final grant amount, the grant beneficiary will be required to reimburse the amount paid in excess by Frontex through a recovery order.

12. PUBLICITY

12.1 By the grant beneficiaries

Grant beneficiaries must clearly acknowledge Frontex’ role and contribution in all publications or in conjunction with activities for which the grant is used.

In this respect, grant beneficiaries are required to give prominence to Frontex’ name and emblem on all their publications, posters, programmes and other products realised under the financed actions.

To do this they must use:

- the disclaimer “Frontex is not responsible for the views displayed in the publications and/or in the activities for which the grant is used” where these are produced/implemented solely by the Beneficiary.

Moreover, the premises of the grant beneficiaries should be branded according to a further agreement to be concluded with Frontex.
